### AIRSPOKEN BIO

Airspoken is an American pop group that are often compared to One Direction and 5 Seconds of Summer. Their recent successes include a viral video on Facebook with over 6.3M views and 18M impressions. This led to various reposts as well as international TV spots. Airspoken has also released their EP, "Sellout", which is very fitting, as they have been selling out venues in Los Angeles since this release. The single "Walls" has received the most recognition with over 451K plays on Spotify alone.

### ACTIVELY ENGAGED

Airspoken recently completed a 50 date middle school tour in Southern California (Jan-May 2017). Understanding the importance of reaching every potential fan, after the each show, band members took time to meet with students, sign every autograph they could, and take thousands of selfies. In return, social media numbers doubled, with an average of 19% of entire schools following them on Instagram and 22% on Snapchat.

LOS ANGELES — Airspoken took the Philippines by storm when they covered Up Dharma Down's hit song Tadhana.

In a matter of days, the video, posted on Facebook, accumulated almost 7 million views with it's epicenter in the Philippines.

It has been shared on popular Filipino pages like Tee Radio and Filipino Vines, and has also been featured on ABS- CBN's Mga Kwento ni Marc Logan.

When asked about the success of this viral video, singer Justin Bernardez said, "It's overwhelming to see the amount of love we've received from the Philippines."

Eli Mayfield added, "In a country with so much musical talent, I'm flattered that the our video was recognized and shared on a national level."

It has been three weeks since the release of the Tadhana cover and Airspoken has a surprise for their new fan base across the Pacific Ocean.

On July 11, the band released a new mash-up that includes two Filipino songs.

Singer Anthony Vazquez said, "It can be a scary thing to sing in a different language. We know

we have American accents, so trying to hide it is nearly impossible. We just want to bring justice to great music and share it with our fans both in the USA and in the Philippines.”

Airspoken is anxious to visit the Philippines.

They plan on spending 10 days performing free shows in malls across the country.

Their management team is currently reaching out to sponsors hoping to make this tour happen as early as mid-August.
