Beginning Jan. 28, another compelling series will captivate the hearts of the Kapuso viewers as GMA Pinoy TV presents a highly-stimulating and thought-provoking drama through Rhodora X.

Rhodora X challenges us to review how deeply we know our loved ones.

It is an invitation so difficult to refuse as it ushers us to discover the nuances of our own personal relationships.

The show stars Jennylyn Mercado, Mark Anthony Fernandez, Mark Herras and Yasmien Kurdi.

Jennylyn takes on a new and challenging role as Rhodora/Roxanne.

Rhodora, as a young girl, experienced extreme physical and emotional abuse when she was abducted and taken away from her family.

This experience eventually led her to develop another persona inside of her.

When she was saved and gets reunited with her family, her Dissociative Identity Disorder (more commonly known as split personality) starts to manifest.

Rhodora's alter ego, Roxanne starts to emerge.

Roxanne is a confident and smart woman but also scheming and manipulative.

She hates her sister Angela so much to the point that she will do everything to get what Angela has — the affection of their mother and Angela's love, Joaquin.

Meanwhile, Yasmien plays Angela.

She blames herself for Rhodora's kidnapping.

But when Rhodora finally gets reunited with them, Angela becomes all the more happy and content because her family is once again complete and she is also set to marry Joaquin.

However, everything changes when Angela was framed and put to jail.

When she sees an opportunity to escape, she ends up in an ancestral house where she will later find out that it was Rhodora who framed her.

She did not know that it was really Rhodora's alter ego Roxanne who did it.

Although she went back to prison, she vows revenge against Rhodora.

Mark Herras plays Joaquin, Angela's fiancé.

He is shocked when Angela allegedly kills his secretary out of jealousy.

Thus, their wedding is cancelled.
