Now, you can play the biggest American lotteries online, safely and securely, without leaving your home in the Philippines. □ (Photo Release)

Imagine this headline: "Resident of the Philippines wins biggest lottery prize in the world."

Sounds like a fairy tale?

Will you be the first \$625 million Powerball jackpot winner from the Philippines?

Amazingly, this scenario could actually come true and what's more, the winner of the \$625 million Powerball jackpot could be you!

If you've ever fantasized about winning a life-changing lottery prize, you probably realize that the biggest jackpots are only offered by American lotteries.

You may have heard that Powerball awarded a \$1.586 million jackpot to three lucky winners in January 2016, and the more recent story of a single person winning a \$1.537 million jackpot playing Mega Millions in October 2018.

Sure, you'd like to play those lotteries as well but traveling to the U.S. to purchase tickets is out of the question.

Now, you can play the biggest American lotteries online, safely and securely, without leaving your home in the Philippines.

This amazing opportunity is offered at theLotter.com, the world's leading lottery ticket purchasing service.

Playing Powerball and Mega Millions online with official lottery tickets is not only possible, but legal as well.

According to the official Powerball website, there are no limitations who can "purchase a Powerball ticket...play the game and...collect prizes."

The website clearly states: "You do not have to be a [U.S.] citizen or a resident to play the game."

These terms open the way for residents of the Philippines to win the biggest lottery prizes and playing at theLotter makes it all possible.

Here's how it's done

Simply sign up at theLotter and choose to play Powerball, or any of the other lottery games available from all over the world.

theLotter's local agents in the United States will buy official lottery tickets on your behalf.

The website charges you a service fee and you will see your tickets scanned in your private account before the draw.

When you win, the entire prize is yours, commission free!

Does the system work?

Just ask the more than 4.5 lucky winners from across the globe who have taken home prizes amounting to over \$90 million USD.

Several players have won jackpot prizes thanks to theLotter's ticket purchasing service.

theLotter's biggest winner to date is Aura D. from Panama, a retired woman still working to support her kids.

Aura was the sole jackpot winner in a July 2017 Florida Lotto draw, entitling her to the entire \$30 million prize.

You, too, can play to win Powerball's massive jackpot.

If someone from Panama can win an amazing American lottery prize by purchasing official tickets online at theLotter, so could you.

And then the headline "Resident of the Philippines wins biggest lottery prize in the world" would become a reality.

Good luck and please play responsibly!

For more information how to play to the upcoming Powerball draw, please visit [theLotter.com](https://www.thelotter.com).
