Celebrating love doesn't have to wait until February.

As early as Jan. 22, you can enjoy a day of love-filled activities at Bonifacio High Street as Avida Towers Global City launches its second and final tower.

Avida Towers Global City, located at the posh Bonifacio Triangle, Bonifacio Global City, is a twin-tower residential condominium complex with first-rate condo units at very reasonable prices.

It houses centralized recreational amenities, as well as efficient facilities and services to help future residents lead a more convenient and comfortable life.

"We are launching the final tower with an event that embodies the kind of lifestyle activities that homeowners will surely love at Avida Towers Global City. Here, one can experience the 'Live, Work, Play' lifestyle to the fullest with the development's great location, quality structures, great features and amenities, and very reasonable pricing," says Dez Cruz, Head of Residential Buildings.

The whole-day event, to be held at the activity center of B3, Bonifacio High Street (in front of Nike), will likewise coincide with the groundbreaking ceremony of Avida Towers Global City's first tower, so expect a day filled with exciting love-filled activities.

"Stuck Together" will definitely be the "sticky" attraction of the event.

It has a huge Velcro wall where kids and adults alike could run and jump and hurl themselves at the wall.

And to improve your fortune and luck, visit the "In Love With Luck" for Feng Shui consultations.

It is the booth that will teach about the energies of the elements and space in 2011, the year of the metal Rabbit.

Other activity stations such as "Charmed Ones," "Let Me Call You Sweetheart" and "Love Your Home" will allow guests to create beaded accessories, design heart-shaped pastries and blend home fragrances.

Together with your family and friends, enjoy a whole day of fun at Avida Towers Global City and discover why it is the place that you would love to call home.

In the course of 20 years, Avida Land has already transformed close to 800 hectares of land
